## EDUCATION

Klabat University  
Bachelor of Computer Science  
2021 - *Present*

SMA Kristen 2 Binsus tomohon  
Graduated 2021

## SKILLS

### Technical Skills :

- React
- TypeScript
- TailwindCSS
- JavaScript (ES6+)
- React Native (mobile)
- Python (Django REST)
- Git & GitHub
- Firebase / Realtime Database
- API Integration

### Soft Skills :

- Problem Solving
- Communication
- Adaptability
- Self-Learning

## PROFILE

A frontend developer focusing on React, TypeScript, and responsive UI development. I have experience building modern interfaces, integrating APIs, and creating clean reusable components. I also work with React Native for mobile development and Django for simple backend APIs. I'm highly adaptable, detail-oriented, and currently preparing myself for international remote work opportunities.

## WORK EXPERIENCE

### Mobile Developer (React Native) — Personal Projects

(2024 - Present)

- Developed simple mobile apps with React Native.
- Implemented navigation, basic authentication flow, and database connections.
- Optimized UI for cross-platform performance.

### Frontend Developer — UD Pelita (Freelance Project)

2023

#### Website Portfolio Development

- Developed a responsive company profile website for UD Pelita using React and TailwindCSS.
- Designed modern UI components and improved the company's online presence.
- Implemented responsive layout to ensure compatibility across desktop and mobile.

#### Cashier System (Integrated with Portfolio Website)

- Built a cashier dashboard connected directly to the main company website.
- Developed CRUD features for managing products, invoices, and transactions.
- Integrated Firebase Realtime Database for instant data updates.

## CERTIFICATION

- Google Cloud Computing Foundations Certificate

2024 - 2027
